2 MODULE 1: Identifying the problem and the desired outcome Session 1 Introduction to this module Defining a problem so that it is relevant to decision-makers begins with awareness that a problem exists or, more specifically, that there is a difference between the actual and

MODULE 1: Identifying the problem and the desired outcome

3) The Systems Approach. Three separate activities: problem definition, development of alternatives, and evaluation. Problem Definition Alternatives Evaluation Don't define problems as solutions; i.e. build a better mousetrap. Don't reject alternatives prematurely. Don't evaluate until problem and alternatives are clearly defined.
