A seven segment display is an arrangement of 7 LEDs (see below) that can be used to show any hex number between 0000 and 1111 by illuminating combinations of these LEDs. For example, the red digits on a digital clock use 2-segment LED displays. 7-segment displays come in two variants: common anode and common cathode.

Seven-Segment Display - Electrical and Computer Engineering

30 Graphical Representations of Data Visualization techniques are ways of creating and manipulating graphical representations of data. We use these representations in order to gain better insight and understanding of the problem we are studying - pictures can convey an overall message much better than a list of numbers.
