Characterisation of Early Vitreous Materials | Request PDF

Abstract. The microstructure and chemical composition of a range of early vitreous materials, principally from Egypt and dating from mid-second millennium B.C. onwards, have been examined in polished section in a scanning electron microscope with attached X-ray spectrometer.

CHARACTERISATION OF EARLY VITREOUS MATERIALS - TITE - 1987

Description : The aim of this monograph is to bring together in a single volume the results of many years of research into production technology of early vitreous materials. The vitreous materials considered are glazed steatite, faience, Egyptian blue and green frits, and glazed pottery and bricks from Egypt, the Near East, the Indus Valley and Europe spanning the period from their beginnings in the 5th millennium BC through to the Roman period.
