consultant, an emergency department nurse trained in critical care and a porter accompany the patient to the computed tomographic scanner and back to the emergency department.

### **(PDF) Critical care in the emergency department: Patient**

Although the majority of critical care patients will be admitted to an ICU, clinical care does not require an ICU admission and discharging the patient does not preclude using critical care. Other common clinical presentations that may qualify for critical care, but are ultimately safely dischargeable include certain allergic reactions and seizures.
