CDC's Center for Global Health works 24/7 to save lives, reduce disease, and improve health around the world.

### **CDC - Global Health**

Global health is the health of populations in the global context; it has been defined as "the area of study, research and practice that places a priority on improving health and achieving equity in health for all people worldwide". Problems that transcend national borders or have a global political and economic impact are often emphasized. Thus, global health is about worldwide health ...

Playing this security card has certainly proved influential in terms of freeing up resources and galvanising leadership. Biosecurity arguments formed the impetus behind the creation of various national initiatives and research bodies on both sides of the Atlantic, as well as the formation of the Global Health Security Initiative –“an informal, international partnership of states seeking to ...

### **Should health professionals play the global health**

GHSA takes a multi-sector, multi-partner approach to accelerate improved capacity on the noted 11 Action Package technical areas. These efforts are intended to help advance implementation of the International Health Regulations and similar animal health and disease reporting systems of the OIE, by building countries capacity to prevent, detect, and respond to infectious disease threats.
