

introduction to agricultural economics pdf

The University of Idaho College of Agricultural and Life Sciences advances the health and welfare of people, animals and the environment through research and education in agriculture, community, human and rural development, natural resources, nutrition and life sciences.

University of Idaho College of Agricultural and Life Sciences

Agriculture is the cultivation of land and breeding of animals and plants to provide food, fiber, medicinal plants and other products to sustain and enhance life. Agriculture was the key development in the rise of sedentary human civilization, whereby farming of domesticated species created food surpluses that enabled people to live in cities. The study of agriculture is known as agricultural ...
