A Message to Garcia is a widely distributed essay written by Elbert Hubbard in 1899, expressing the value of individual initiative and conscientiousness in work. As its primary example, the essay uses a dramatized version of a daring escapade performed by an American soldier, 1st Lt. Andrew S. Rowan, just prior to the Spanish-American War.

Implanting surreptitious messages in numeral sound is usually a more hard process than inserting messages in other media, such as numeral images. These procedures sort from quite modest algorithms that pullout gen in the form of gesture noise to more dominant methods that feat erudite signal processing techniques to pelt material.
