Preface xi nature (see Chapters 7, 9, 11, 16), it is already possible to reject firmly the despairing belief that human nature is ultimately and basically depraved and evil. Such a belief is no longer a matter of taste merely. It can now be maintained only by a determined blindness and ignorance, by a refusal to consider the facts.

Grit in psychology is a positive, non-cognitive trait based on an individual's perseverance of effort combined with the passion for a particular long-term goal or end state (a powerful motivation to achieve an objective). This perseverance of effort promotes the overcoming of obstacles or challenges that lie on the path to accomplishment and serves as a driving force in achievement realization.
