

new clinical laboratory standardization pdf

4 2. Infrastructure - A safe and suitable physical environment with ample space, power, climate control, water and transport access. There should be an uninterruptible power supply (UPS) supporting laboratory equipment in case of power surges.

Consultation on Technical and Operational Recommendations

The Clinical and Laboratory Standards Institute (CLSI) is a volunteer-driven, membership-supported, not-for-profit, standards development organization. CLSI promotes the development and use of voluntary laboratory consensus standards and guidelines within the health care community. The organization's mission is to develop clinical and laboratory practices and promote their use worldwide.

Clinical and Laboratory Standards Institute - Wikipedia

IFCC results are accuracy-based; NGSP results can be directly related to clinical outcomes and diabetes care goals. Although the IFCC/NGSP correlation is excellent, the absolute numbers are different and there has been much debate over which numbers should be reported worldwide.
