State of the Plants: Challenges and Opportunities for Conserving New England's Native Flora
Acknowledgments New England Wild Flower Society gratefully acknowledges the hundreds of people who have contributed to the knowledge of plants in the region, including field botanists, professors, students, Plant Conservation Volunteers,

State of the Plants - New England Wild Flower Society

conserving native plants on those parcels and private land is critical for sustaining healthy, biologically diverse landscapes. Native plants are the backbone of habitat, for us and for insects, birds, mammals, and other organisms. Plants supply the oxygen we breathe, regulate the climate, and clean the water.

State of New England's Native Plants

PLANTS now presents images in a "slide show", enabling PLANTS users to scroll through photos and line art, providing a faster and easier way to review images. PLANTS has new maps Plants is trying out a new, more modern mapping system.
