Next-Generation Performance- Based Regulation - NREL

With this report, we have divided the full Next-Generation Performance-Based Regulation report into three volumes: 1. Next-Generation Performance-Based Regulation Volume 1: Introductionâ€”Global Lessons for Success 2. Next-Generation Performance-Based Regulation Volume 2: Primerâ€”Essential Elements of Design and Implementation 3.

Next-Generation Performance-Based Regulation: Volume 1

develop next-generation performance-based seismic design procedures and guidelines for structural and nonstructural components in new and existing buildings. This FEMA 445 Program Plan is a refinement and extension of two earlier FEMA plans: FEMA 283

Toward Next Generation Performance-Based Building

engaged in a multi-year effort to develop next-generation performance-based seismic design criteria. The criteria will be applicable to the design of new buildings or the retrofit of existing buildings. Constructed around a structural reliability framework, the criteria will permit the design of buildings to meet specific

Development of Next-Generation Performance-Based

The principal outcome of the Phase 1 effort was a revised program plan, which was published and released in August 2006 as FEMA 445, Next-Generation Performance-Based Seismic Design Guidelines, Program Plan for New and Existing Buildings.

Development of Next Generation Performance-Based Seismic

Performance-based regulation (PBR) enables regulators to reform hundred-year-old regulatory structures to unleash innovations within 21st century power systems. An old regulatory paradigm built to ensure safe and reliable electricity at reasonable prices from capital-intensive electricity monopolies ...
