Common themes. Primarily obsessional OCD has been called "one of the most distressing and challenging forms of OCD." People with this form of OCD have "distressing and unwanted thoughts pop into [their] head frequently," and the thoughts "typically center on a fear that you may do something totally uncharacteristic of yourself, something... potentially fatal... to yourself or others."

Codependency is a controversial concept for a dysfunctional helping relationship where one person supports or enables another person's addiction, poor mental health, immaturity, irresponsibility, or under-achievement. Among the core characteristics of codependency, the most common theme is an excessive reliance on other people for approval and a sense of identity.
