Decapitation is the complete separation of the head from the body. Such an injury is fatal to humans and most animals, since it deprives all other organs of the involuntary functions that are needed for the body to function, while the brain is deprived of oxygenated blood and blood pressure.. The term beheading refers to the act of deliberately decapitating a person, either as a means of ...

A talk box is an effects unit that allows musicians to modify the sound of a musical instrument by shaping the frequency content of the sound and to apply speech sounds (in the same way as singing) onto the sounds of the instrument. Typically, a talk box directs sound from the instrument into the musician's mouth by means of a plastic tube adjacent to their vocal microphone.
